Resume

Software developer with 4+ years of experience building web and mobile products using React, TypeScript, and JavaScript. Experienced delivering product features, integrating APIs and third-party services, and contributing across frontend and backend workflows. Has worked on AI-powered product experiences and real-time features using WebSockets. Uses Claude Code to support development and problem-solving, reviewing and validating generated code. Self-directed and collaborative, with a focus on maintainable solutions and clear product value.

Experience

Neon Blue — Full-Stack Developer
May 2025 – March 2026

- Delivered product features using React and TypeScript, translating requirements into user-facing functionality.
- Contributed to AI-powered product experiences and content workflows.
- Integrated internal and third-party services through typed API layers.
- Implemented real-time application features using WebSockets and streaming patterns.
- Used Claude Code and agent-assisted workflows to support implementation and problem-solving, reviewing and refining generated code before integration.
- Contributed to quality through testing, observability, and technical documentation.

Sainapsis Inc. — Frontend Developer
January 2024 – May 2025

- Built web and mobile product features with React, React Native, TypeScript, and Expo in an Nx monorepo.
- Led a React Native design-system effort, creating reusable components and documenting them in Storybook.
- Implemented role-aware interfaces and contributed to API integrations and real-time notifications.
- Developed offline-first workflows connecting API data with local storage.
- Collaborated with QA on end-to-end flows and contributed unit and component tests using Jest and React Testing Library.

GDEN Technology — Frontend Developer
June 2022 – November 2023

- Developed and maintained web and React Native applications for third-party clients.
- Translated product requirements and design prototypes into responsive, mobile-first interfaces in collaboration with design teams.
- Worked with JavaScript, TypeScript, React, Next.js, Vite, Zustand, Tailwind CSS, Styled Components, and Material UI.
- Participated in code reviews and supported teammates through feedback and mentoring.

Technical Skills

- **Frontend:** React, Next.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3
- **Styling:** Sass, Tailwind CSS, Styled Components, Material UI, responsive and mobile-first design
- **Design and component systems:** Figma, Adobe XD, Storybook, reusable components, design-system documentation
- **State and data:** Zustand, TanStack Query, React Context, REST APIs, GraphQL
- **Testing and collaboration:** Jest, React Testing Library, QA collaboration, Git, GitHub, GitLab
- **AI-assisted development:** Claude Code, agent-assisted workflows, review and validation of generated code

Languages

- Spanish Native
- English

Education

Instituto Universitario Politécnico Santiago Mariño - *System engineering*
