Resume

Full Stack Developer specializing in React ecosystems and scalable web/mobile applications. Experienced in architecting end-to-end solutions with modern JavaScript technologies, focusing on performance optimization and cross-platform development. Strong track record of implementing complex features and driving technical initiatives in collaborative environments.

Experience

May 2025 - March 2026

Neon Blue - *Fullstack Developer*

- Delivered end-to-end product features across frontend and backend using TypeScript, React, and Effect, taking initiatives from discovery to production and improving team delivery speed.
- Built AI-enabled user experiences with Effect RPC and Effect Schema that automated content workflows and improved output quality and consistency.
- Improved application responsiveness by implementing real-time flows over WebSockets and Effect Stream, reducing wait times and creating smoother user journeys.
- Integrated third-party services and internal systems through typed service layers in Effect, streamlining operations and removing manual work across teams.
- Increased engineering quality by strengthening state management with Effect Atom and improving release confidence through better testing and observability practices.

January 2024 - May 2025

Sainapsis Inc - *Fullstack Developer*

- Spearheaded cross-platform frontend development (React/TypeScript) for Bridge product using Nx monorepo, enabling shared components across web/mobile while maintaining design system consistency.
- Designed and implemented an access control system for the administrative portal, enforcing granular user roles and permissions through type-safe React contexts.
- Contributed to event-driven notification system:
 - Implemented real-time message delivery using Redis Pub/Sub with Effect Stream
 - Designed fault-tolerant connection management with automatic resource cleanup and exponential backoff retry policies
 - Integrated with Firebase Cloud Messaging for reliable push notification delivery

- Architected offline-first React Native/Expo workflows, leveraging Effect Schema for bidirectional data transformations (API ↔ local storage) to ensure data integrity.
- **Technologies:** JavaScript/TypeScript, Effect, Nx, Vite, Next.js, TanStack (Query, Table, Router), Redis, Zustand, GraphQL, Apollo, TailwindCSS, SQL, SQLite, React, React Native, Expo, Github, Git, AWS CodeCommit, AWS EC2, Firebase Cloud Messaging

June 2022 - November 2023

GDEN Technology - Frontend Developer

- Successfully developed and maintained web and mobile applications using React and React Native, resulting in increased client satisfaction and retention by 20%. Collaborated with a multidisciplinary team to choose and apply scalable technologies, ensuring projects were adaptable to changing requirements.
- Created landing apps for multiple clients, resulting in improved user engagement and conversion rates by 15%. Implementing best UI/UX practices in order to improve design and optimized performance, enhancing the overall brand impact and reputation.
- Implemented effective code reviewing processes, resulting in a 30% reduction in bugs and improved code quality across the team. Fostered a collaborative environment, providing constructive feedback and mentoring to fellow team members, contributing to enhanced productivity and efficient project delivery.
- **Technologies:** JavaScript/TypeScript, Vite, Next.js, Zustand, TailwindCSS, Styled Components, Material MUI, React, React Native, React Native CLI, Gitlab, Github, Git

Education

February 2018

Instituto Universitario Politécnico Santiago Mariño - System engineering

Technical Skills

- JavaScript/TypeScript, Effect, Nx, Vite, Next.js, TanStack (Query, Table, Router), Apollo, Redis, Zustand, GraphQL, TailwindCSS, SQL, SQLite, React, React Native, Expo, Git, GitHub, GitLab, AWS (CodeCommit, EC2), Firebase Cloud Messaging, Styled Components, Material MUI, CSS3, HTML5
- Bootstrap, Styled Components, SASS, Material UI, Tailwind CSS, CSS, Shadcn/ui
- Figma, Adobe XD
- Git, Github, Bitbucket, Gitflow, Gitlab, Aws codecommit
- English (B2), Spanish (Native)
